Title: The costs and time incurred for the ASSESSMENT of LEARNING process (*Research Results*)

P4P conducted research within the **skills development** market in 2021 to explore the actual impact that the Assessment of Learning Process (image 1) is having on **Skills Development Providers**. (#SDP)

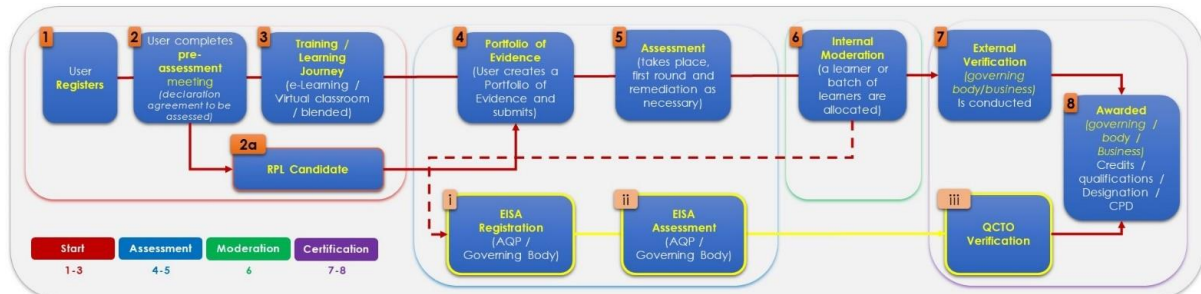

Image 1: Assessment of Learning Process

From the research [P4P](#) have partnered with [OneFile](#), [CloudAssess](#) to offer some very amazing results:

- the **costs** that the SDP's are paying for the Assessment of Learning process (*Admins, registrations, assessment, internal moderation, verification, postage, email, etc...*)
- the **time** that the SDP's are spending on the Assessment of Learning process
- the current adoption of SDP's in the digital assessment space to remain relevant in the 4th industrial revolution.

The 2 main questions that we are answering at the event:

Question 1: Do you know the actual costs you are incurring for your Assessment of Learning Process of your Training Programmes / Short Courses / Learnerships, on-boarding, CPD assessment? (*both manual and digital implementation*) Not just the cost of your "assessor", but, per individual learner and per batch of learners?

Question 2: Do you know the actual time it takes to complete the Assessment of Learning Process from end to end with ALL the stakeholders? (*both manual and digital implementation*)

WHAT WE DID!

P4P is the leading e-Assessment and e-Portfolio platform and has been enabling the digitising of the assessment of learning process for over 8 years. To assist the **Skills Development Industry** (in South Africa and Internationally) we continue to conduct research on the Assessment of Learning process. Because this **process** impacts both live learning offerings, RPL strategies, CPD, internal recruitment, and other assessment initiatives, this latest research explored:

"The actual time and costs incurred by a Skills Development Providers (#SDP) to conduct and complete the end-to-end Assessment of Learning process."

WHAT WILL YOU GET AT THIS EVENT:

1. The findings of the research conducted on the **Assessment of Learning process**.
2. Information that will enable you to find opportunities for you to cost save in your assessment of learning offerings
3. **Digital Learning of Assessment Panel:** Engagement with digital Assessment of Learning experienced panel members offering their views and comments on this.
4. **Industry Norms:** A view of the current industry costs so you can provide more accurate quotes for your: projects, training programmes, client/company skills development budgets.
5. **Assessment of Learning Cost Calculator:** Access to a **Pre-Live** Assessment cost calculator. Only on the day for those that attend.
6. **Digital Assessment Self Analysis Survey:** Access to a **Pre-Live** self-analysis of your readiness to implement your assessment in the 4th industrial revolution.
7. **Surprise...** and if that is not cool enough... there will be one more surprise at the event for those that attend.
